

professional series

Commercial cleaning requires solid solutions. Delamo Professional presents heavy-duty tools that reduce labor and increase value, whether for a meticulous housekeeper or the occasional Ninja Janitor.

home care series

Household cleaning is necessary, but does not need to be an unpleasant task. Delamo Home Care offers a line of tools to make every home look squeaky-clean. Look and feel beautiful with Delamo Home Care.

green clean series

Delamo's Green Clean products is our solution to help the environment and the Earth. They are made from a specially formulated material using a proprietary process that recycles tires and plastics.

# things are about to change ...

introducing

new design | new engineering | new logistics  
new accountability | new manufacturing | new opportunity

Delamo is about people, then products. The people of Delamo are a diverse blend of talent and culture. For over 20 years, they have produced innovation and dozens of patents. The result is hundreds of successful products.

Delamo Professional, Home Care and Green Clean products are collections of cleaning tools; each specifically designed to improve the most important cleaning factor, people. There are thousands of cleaning products, but it is people that make the difference.

Delamo Accountability. Delamo considers people the essential resource, from employees, to the community to the sustainability of the planet. Every product is proudly made by people that share these values, using sustainable materials whenever possible.

Cleaning at home and cleaning away, Delamo is a winner.
