

pop mop™ pro Instructions

Step 1 To remove the dirty pad after cleaning with your Pop Mop Pro, hold the mop straight up and down, so the **plastic housing (A)** is aligned with the **4 plastic posts (B)** on the mop head.

Step 2 Then push down on the plastic housing to pop off the dirty mop pad.

When cleaning is complete, do **NOT** throw the pad away! Wash and reuse.

Machine washable pad. Do **NOT** use dryer sheets, fabric softener or bleach. Air or Tumble dry low. Up to 100 washes.

x 100

Microfiber cleans deeper with half the effort. Microscopic fibers are charged to lift and lock in dirt, instead of pushing it around.
